Sixty-Third Year | Canyon, Texas | Wednesday, August 27, 1958 | Number 20

Buff Practice Opens Sept. 1

West Texas State's Buffaloes will head into the corral Sunday with workouts for the first season under Coach Clark Jarnagin starting Monday.

Some 29 freshman who signed up to play with West Texas will report a week later, to begin practice after the varsity hopefuls have settled down to routine. In addition to a new head coach, the Buffs will have four new assistant coaches.

The new assistants will be Odis Crowell, Jackie Weldon, Joe Brooks and Jerry Johnson. In addition, Hatcher Brown will continue as an assistant coach and Borden Price will handle scouting duties until basketball season begins.

The Buffs lost six starters and a total of 15 lettermen by graduation last year. Starting returnees in the backfield will be Red Dog Ratliff, Bobby Davis and Jack York.

In the line, Eddie Meyers, Raymond Kauffman and Carroll Stafford are expected to fill losses from the '57 team, and Jerry Epps, Leon Manley, Tommy Coffey and Don Snodgrass will beef out the roster if spring training results hold true.

West Texas will play a rough schedule this year with the first game scheduled on Sept. 20 in Roanoke, Va., against Virginia Tech. Following are Texas Tech in Lubbock on Sept. 27, Arizona State in Tempe on Oct. 4, Texas Western in Canyon on Oct. 11, Trinity University in Canyon on Oct. 18, Mississippi Southern in Hattiesburg on Oct. 25, the University of Arizona in Tucson on Nov. 1, Abilene Christain in Canyon on Nov. 8, Hardin-Simmons in Abilene on Nov. 15, and New Mexico A&M in Canyon on Nov. 22.

The game with Tempe will be the first in Tempe's new 30,450-seat stadium.

The first string at the end of spring practice had Snodgrass and Coffey at ends, Meyers and Kauffman at tackles, Epps and Manley at guards, Stafford at center, Davis at quarterback, Don Blair and Charles Denny at halfbacks and Ratliff at fullback.

The second team had Fred Hedgecoke and Jim Brinkley at ends, Roger Huffaker and Jimmie Gibson at tackles, Gene Brewer and Max Washington at guards, Alvin Lynn at center, Jack York at quarterback, Jim Hadaway and Rex Loftis at halfbacks and Jones Hedrick at fullback.

The upperclass roster is five deep at both ends, four deep at left tackle and five deep at right, five deep at left guard and four at right, three deep at center, five deep at guarterback, four deep at left half and five at right half and three deep at fullback.

Freshman signed up include Dickie Barton, Lockney, 170, 5'11, back; Jerry Behrens, Clarendon, 210, 6'1', back; Joel Edwin Brown, Alpine, 170 5'10", guard; Richard Burgess, Canyon, 230, 6'2½, tackle; Jerry Cannon, Amarillo, 185, 5'11, back.

Garland Cartwright, Matador, 189, 6'2, end; Johnny Cook, Phillips, 180, 6', end and back; Lane Crank, Lockney, 215, 5'10, tackle; Weldon Fairchild, Friona, 180,

(Con't. on Back Page, Section 1)

Amarillo Man Drowns in Lake

The body of an Amarillo man was recovered from Buffalo Lake at 10:40 p. m. Tuesday after about three hours of searching by rescue workers.

He was identified as George Lynn Riggins, 25, of 4630 Bonham.

Sheriff's officers said it was not known exactly how the drowning occurred, but it was believed that Riggin's boat drifted away from the bank and he swam out to retrieve it. They said he left his shirt and glasses on the bank.

The body was recovered on the south side of the lake opposite the old club house. Rescue workers from the Canyon Volunteer Fire Department were aided in the search by crews from the Amarillo Fire Department and Amarillo Air Force Base.

Hamilton Wins In Randall Vote

Out of a possible 7,000 or so, 477 Randall County citizens went to the polls Saturday and gave Robert W. Hamilton a nearly 8-to-1 victory over J. Edwin Smith for the office of associate justice of the state supreme court.

The final vote, as canvassed by the Democratic Executive Committee Tuesday, was 422 for Hamilton and 55 for Smith. In the first primary in July, Hamilton got 1749 votes, Smith 943 and Wilmer B. Hunt 1075.

Fund Drive Near Goal in Canyon

Canyon's goal of $20,000 for the West Texas State Stadium Fund Drive is nearly reached, a report meeting Monday night showed.

Pledges of $19,000 plus were reported at the meeting, and a final report has been set for 7 a.m. Sept. 8 in the West Texas State Cafeteria. It is expected that the reports will show the goal has been over-subscribed.

Eight captains are working on the drive here, with a total of 65 workers canvassing possibilities.

The captains are Bill Sternenberg, Jack Taylor, A. W. Lair, Clay Cooper, Bob Bellah, T. G. Hull Jr., Walter Graham and Don Standley. Hosea Foster is general chairman of Canyon.

Any football fan who has not been contacted in the drive may pledge to the fund by calling any of the captains or one of the 65 workers.

School Opens With Registration Thursday, Friday; New Teachers

Eleven new teachers will greet Canyon Public School students when registration begins Thursday morning. The school year began this morning for teachers with a faculty meeting and an in-service program.

Classes will begin Tuesday with school buses operating on all routes.

The registration schedule calls for high school seniors to sign up from 10 a. m. to noon on Thursday and juniors from 1 p. m. to 4 p. m.

The Friday schedule has sophomores registering from 9 a. m. to noon and freshmen from 1 p. m. to 4 p. m. Junior high and elementary students will also register Friday.

The junior high enrollment will be from 9 a. m. to noon.

Elementary enrollment for pupils whose last names begin with the letters "A" through "M" will register from 10 a. m. until noon and those whose last names begin with the letters "N" through "Z" will sign up in the afternoon from 1 p. m. until 4 p. m.

Classes will not be held on Monday, Sept. 1, leaving the Labor Day weekend free.

A holiday for the Tri-State Fair is scheduled for Sept. 15 and the first six weeks period ends on Oct. 10. Thanksgiving holidays will be Nov. 27 and 28 and the Christmas vacation will last from the end of school on Dec. 19 until the morning of Jan. 5.

The first semester will end Jan. 22 and the second semester begins Jan. 26. The next holiday will be March 13 for the Northwest Conference on Education. Easter will give March 27 through March 30 for the holidays.

School will end at the end of classes on May 28. The schedule calls for 176 teaching days.

The new teachers in the high school are James Kauffman, physical education; Edward L. Dwyer, vocational agriculture; Mrs. Bill

Con't on Back Page, Section 1

Charter Petitions Being Circulated

Petitions asking the city commission to consider changing Canyon's form of government to home rule are being circulated this week by the Canyon Chamber of Commerce.

If the petitions are signed by 10 per cent of the voters, the city commission will appoint a charter commission to draft a charter for the city. The charter would then be submitted to the voters in an election to decide if the form of government will be changed.

A committee of the chamber studied various forms of government and suggested that the government here should be home rule, with a commission and city manager, and that the commission should be composed of four commissioners and a mayor with staggered terms.

Stores Will Close For Monday Holiday

The majority of businesses in Canyon will be closed Monday in observance of the Labor Day holiday.

Labor Day was picked as one of the days for closing by the retail merchants committee of the chamber of commerce.

Steve Downing in Amarillo Hospital

Steve Downing, 10, son of Mr. and Mrs. M. S. Downing, is doing well in Northwest Texas Hospital in Amarillo this morning after suffering injuries from a homemade "firecracker" Tuesday night.

The lad suffered powder burns on his face and eyes and puncture wounds on his arms, including a wound that severed one of the major arteries.

He is reported to have filled a small glass bottle with gun powder and to have inserted a short fuse. The "firecracker" exploded too quickly and injured him.

He is expected to be released from the hospital today or tomorrow.

Youth Meeting Speaker

The Rev. Walter Hadley, pastor of the Happy First Methodist Church, spoke to 50 young people during Youth Activities Week, held last week in the Canyon First Methodist Church. Joint sponsors were the Christian, Methodist and Presbyterian churches in Canyon.

Football Season's Started

A couple of weeks before the first game, football season gets started with bone-wearying work like pushing a sled loaded with a heavy football coach. The Canyon Eagles began workouts Monday morning.

Call Community Meeting

Plans for a community meeting and a mimeographed brochure of information about the $1 million high school bond election on Sept. 6 were made at a meeting of the school board and representatives of the five citizens committees Tuesday night.

The mass meeting will be at 8 p. m. Sept. 4 in the high school auditorium. A committee of Bob Wear, chairman, J. E. Miller, A. W. Lair, Strauss Atkinson, Delbert Lowes, and T. G. Hull was named to plan a program for the meeting and to publicize it.

The brochure will be prepared by the school offices and will contain questions and answers about the need for a new high school, plans for the proposed building, financial information and other material.

The mass meeting will be opened to a questioning period and citizens who attend may seek information about any phase of the program.

The board announced the proposed location for the new school at the meeting. The school will be situated on a 32-acre plot which lies between 8th and 11th Streets, south of Ninth Avenue. All but a small portion of the tract has been optioned to the board.

The board also announced plans for the use of buildings if the new high school is built.

The present high school building will be used by the junior high, and the present junior high will be converted to a second elementary school as the need arises, Supt. Joe Gibson said.

The board said that the actual design of the building and of individual classroom units has not been set, but it is known what they hope to include in the building.

Plans call for administrative offices, 12 lecture classrooms, a science area of two rooms, a two-room home economics area, vocational agriculture area and feed lots on the south end of the tract, commercial area of two or three rooms, band practice area, music rooms, arts and crafts work space, teacher lounge and work facilities, industrial arts classroom and workshop, library, cafeteria, auditorium and gymnasium.

Board member Bill Sternenberg said that one of the greatest problems facing the architect, Townes and Townes of Amarillo, is planning the building so that additions may be made economically in case the need for more room arises.

The board has picked 500 to 600 as the student capacity of the new building. It is believed that a building of any larger capacity would cost much more than the $1 million being asked in the bond election.

Board member Walter Graham said the decision on size is a hard one, but necessary. While the bond issue may have opposition from voters because the proposed building is not large enough, it would also have opposition if it were bigger than is needed at the time of construction, he said.

"If we were going to put down what we really will need, it would take an issue of maybe $2 million," Graham said. Sternenberg added that the amount of the issue is also limited by the percentage of indebtedness to valuation that the school can incur under Senate Bill 116.

Lowes told the board that he believes the people of the district are not aware of the need because they have not been fully informed about what the board plans. Wear said it has been his experience in bond elections that people must be informed completely, "not just in a general way, but with details."

Board president A. C. Haley told the group that the board has not been able to announce details because the details have not been known. The board has been

Cont'd on Back Page, Sec. 1)

Eagle Workouts Already Begun

Two-a-day workouts for the 1958 Canyon Eagles began Monday morning with 27 candidates reporting to Head Coach Bill Davis and his three assistants.

The players begin workouts at 7:45 a. m. and have a two-hour session on the field. After a rest period, they troop to classrooms for skull practice, have lunch in the cafeteria, have more study sessions in the afternoon and close out the day with another two hours on the field. They do not go home during the day.

The double workouts will end next week when classes begin. The first game of the season is in Slaton on Sept. 5.

Neither optimistic nor pessimistic, Davis refrains from predicting the outcome of the season. "I think they'll be the hardest-trying boys I've ever had," he says. "They're going to improve."

Davis said his charges are working hard in practice, and "that makes them play hard in games."

A scrimmage game has been scheduled before the opening game of the season. The scrimmage will be with Clovis in Buffalo Stadium at 7 p. m. Friday.

The Eagles will also work out two nights next week. They will take one end of the field Monday and Tuesday nights while the West Texas State Buffaloes take the other end of the field. Coach Davis said WT Coach Clark Jarnagin had invited the Eagles to share the field so that fans could see both of the teams at the same time.

Davis has not selected his starting team yet, but is working with a Blue and a White team.

The Eagles have 11 returning lettermen, three squadmen and several outstanding players from last year's B-squad. Lost from last year's team are seven men who were starters for most of the season, although only four were starters in the last game of the season.

Last year's team had a 5-4-1 record, losing one game by one point and two by one touchdown. The 1957 group was dogged by flu.

Davis plans for a combination ground-air attack with three possible passers, Jerry Richardson, 145-pound quarterback; Eddie Boydstun, 195-pound halfback; and Tommy Henderson, 170-pound halfback. Boydstun has been shifted from fullback to halfback. Henderson played last season as Boydstun's replacement at fullback and also as a halfback.

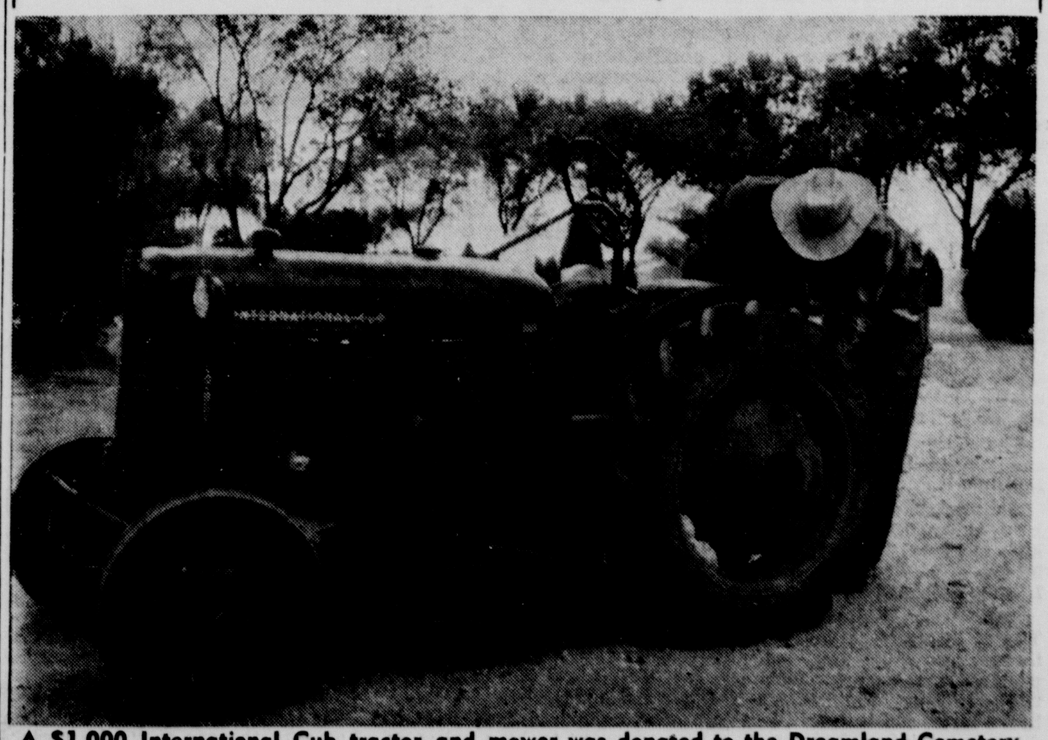
Co-captains of the team will be Boydstun, Larry Kitchens and Roy Harris.

Assisting Davis this year are three newcomers—Bill West, late of Panhandle, James Kauffman, 1958 West Texas graduate, and John Howle, 1955 Texas Western graduate, All Border Conference end and professional player for two seasons.

Expected to remain on the A-squad are 22 players, Dale Henry, Jerry Richardson, Eddie Boydstun, Tommy Henderson, Dwayne Ledbetter, Roy Harris, Larry Brotherton, Ronnie Huyck, Jerry Reynolds, Bob Winn, Ross Bond, Craig Hinger, Howard Lisle, George Prichard, Larry Kitchens, Jim Brasher, Jackie Brietling, Jerry Parker, Richard Purcell, Bill Cornette and Mike Pool.

While on European tour Mrs. Stella McClary of Etowah, Tenn., died Friday of a heart attack in London, England. She is the sister of Mrs. Henry Bradford.

Gift to Cemetery



A $1,000 International Cub tractor and mower was donated to the Dreamland Cemetery Association by people who have previously helped the association. The tractor was given by Johnnie McBroom, George Blackwell, Hosea Foster, Warren-LaGrone Funeral Chapel, and the members of the board of directors of the association, who are Mrs. L. L. Byars, Dr. Ford Fronabarger, R. B. Allen, Levi Cole, A. W. Lair, Tom Black, Mrs. Alfred Bellah, Mrs. Clyde Warwick and Dr. J. A. Hill.

Do You Know Canyon?

(This editorial was swiped from the Ochiltree County Herald, which newspaper swiped it from the Southwest Daily Times in Liberal, Kan. It fits just about any town with a few changes. —The Editor.)

How much do you know about Canyon and Randall County?

To successfully sell this area you must know the good points and be fully sold on it yourself.

Here are some questions that you should be able to answer quickly and easily:

How did Canyon get its name? How did Randall County get its name?

What industry employs the greatest number of people here?

Where is the Chamber of Commerce office located?

Where is Western Union located?

Where is the post office?

Where is the public library? When does it open?

Where is an attractive place for a picnic?

What is the altitude of Canyon?

What is the population of Canyon?

Can I go fishing here? Where? How much does it cost?

We can only stay here two days, what do you recommend we try to see?

Do you have any service clubs here? What ones? Where do they meet and on what day?

Are there any detours or road hazards on the highways leaving here?

Where can we go to play golf while we're here?

What churches do you have here?

Do you have any museums around here? Are there any points of historical interest we could see?

Where can I find a doctor? A hospital?

What can I buy that is typical of this community?

Where can I get some food in a good, clean restaurant?

What is the average temperature here? How much annual rainfall?

What are the local activities, events, shows, fairs and outstanding attractions?

If you are a filling station operator, motel owner, cafe owner, you should be able to answer these without any hesitation. If you can't, you should brush up a bit on your home town.

Bolsters Economy

We had a news release this week from the Department of Health, Education and Welfare bragging that one of the factors which bolsters the economy of this county is the $12,805 a year received by 295 Social Security beneficiaries.

To our way of thinking, $12,000 a year has absolutely no effect on the economy of this county. True, it most likely has some effect in the lives of the 259 people.

But think of the effect on the economy of the 4.5 per cent of all salaries earned in the county were left in the hands of the employees and employers. Oh well, there's no way to keep hold of that percentage in this day of bounding socialism. Why, Congress just upped "benefits" again.

Amendments No. 5, 6, 7

The fifth amendment to the Texas Constitution proposed for the general election on Nov. 4 would allow cities operating under home rule charters to change the terms of office for its mayor and commissioners from a maximum of two years to a maximum of four years.

If the amendment passes, each city under home rule would have to amend its charter to take advantage of the change. We plan to vote against this measure, although it will not affect Canyon one whit.

The reason we plan to vote against it is that we feel that the more often an elected official faces the voters, the more efficient and better service he will give.

The sixth proposed amendment would allow the state to set up a pension fund for retiring Texas Rangers and their widows who have not been eligible for membership in the Employees Retirement System of Texas.

The fund would be created from money in the Confederate Veterans pension fund. At present, the money from the fund is being used by the state colleges for buildings. We'd like to see the same use of the money and we'll vote against the pension fund amendment.

The seventh amendment on the ballot would allow the legislature to appropriate money to be spent on advertising Texas. We believe the people of Texas are its own best advertisement, and we'll vote against this proposed amendment.

Flying Saucers?

Monday morning's chill breeze blew in more than shivers.

Soon after the sun rose clear of the horizon, a number of youths clothed in white began running and twisting, jumping and falling; and the object of their contortions was a leather-covered object technically known as an oblate spheroid.

Yes, football blew in Monday morning with the wind. Canyon High's coach Bill Davis had his "A" squad out for two-a-day workouts, with the schedule calling for skull practice in between times.

And to be sure that football season is really at hand, director Herman Demus had the Eagle Band at work marching and turning in practice for the first game.

The morning cool was right for the practice, and soon the nighttime air is going to be right for the games. Hooray, football season is here.

What Our Neighbors Say . . .

Scissor Snippings

Paul Crume in the Dallas Morning News: In a lot of years of police work, City Patrolman T. G. Tilson figured that he had run into everything. After Thursday morning, he knew he had.

Tilson answered a call from a residence in South Oak Cliff and was met by a woman who said, "My sister is caught in the bathtub." It was a composure-shattering moment, but after a housecoat had been thrown over the victim, Tilson nerved himself and reconnoitered.

A 54-year-old lady of 170 pounds was sitting in the tub, from which the water had been drained, and she was firmly wedged in, no doubt about it. Her sister had been unable to free her, even with the help of a neighboring lady.

The sister and Tilson teamed up and yanked at the woman. She remained in the bathtub.

By this time, Tilson was in a kind of sweat, not entirely from his exertions. He said: "If you'll let me handle this my own way, I think I can get her loose."

The sister stepped back, and Tilson, carefully paying attention in some direction away from his problem, got his arms under the trapped woman and heaved. She broke loose, and with a little help, disappeared into a bedroom.

The sister thanked Tilson graciously for his trouble.

"I guess you were blushing, Tommy," said a friend when he told the story at the police station.

"You darn right I was," he replied.

☆ ☆ ☆

Dave McReynolds in the Friona Star: There must be a strange attraction between our new building and these pesky flies!

All one has to do is turn on the air conditioner, sit down at this typewriter, and we guarantee that within the space of a few minutes you'll be pulling your hair out.

We've about solved the problem by placing a flyswatter behind our ear, instead of a yellow pencil, and keeping a bug bomb within reach.

This does a pretty good job of keeping flies away, but it doesn't help do the typing much faster.

In fact, we've found that we spend 99 per cent of our time swatting flies, and the other one per cent we spend trying to work.

☆ ☆ ☆

Paul Crume in the Dallas Morning News: The 19-year-old son of a Dallas homebuilder has been helping show off a $50,000 house which his dad built for the Parade of Homes that is now showing.

After a day or two at the job, he remarked to the saleswoman-hostess at the house: "I wouldn't want to trade jobs with you. I don't like people."

She replied that apparently he wasn't going to be a salesman.

"I'm not going to be a salesman," he agreed, "I'm going to be a doctor."

"But if you're a doctor, you'll have to like people."

"Liking people," he observed, "and liking to cut on them are very different things."

☆ ☆ ☆

Bill Howe in The Shamrock Texan: While I was visiting at Southard's Grocery Monday, Doug Greenhill rushed in all excited and asked wife Mary, who works at Southard's what was the meaning of the new baby bed that had just been delivered to their house. "Don't get so excited, Doug," she said, "the grandchildren are coming to see us."

☆ ☆ ☆

Paul Crume in the Dallas Morning News: A well-to-do Lakewood woman who likes the creature comforts astonished some of her friends the other day. She announced that she was leaving her air-conditioned home here in the August heat and going fishing.

"I've been spending too much time inside," she said.

As they talked further, they discovered that she was driving in an air-conditioned auto to Lake Texoma to spend a few days with friends in their air-conditioned lodge, and they have an air-conditioned fishing pier.

☆ ☆ ☆

Bascom Nelson in the Castro County News: We might wind this up with the one about the doctor performing a delicate operation before the hushed admiration of the student gallery. All went fine until his assistant leaned over and asked sweetly, "Doctor, may I cut in?"

I GIVE YOU TEXAS

By BOYCE HOUSE

One of the most colorful individuals I ever met was Dr. Brinkley — frequently spoken of as "Doc" Brinkley — whose name was linked with gland operations.

He was living in Del Rio and was the owner of a radio station on the Mexican side of the Rio Grande. The station was so powerful that it could be heard over a large part of the United States. A large part of the mail handled by the Del Rio post office consisted of thousands of letters and cards from listeners and much of the patronage of the hotels was made up of visitors there in connection with the Brinkley Sanitarium.

Dr. Brinkley owned two planes. In fact it was at the Del Rio airport that we met. Walter D. Cline of Wichita Falls, the president of the West Texas Chamber of Commerce, flew down in a private plane to speak to the annual Del Rio Chamber of Commerce dinner and D. A. Bandeen, then WTCC manager, and I came along for the ride. (I was staff correspondent for the Fort Worth Star Telegram).

The celebrated doctor was on hand to greet us. Also on hand — on his left hand to be exact, was one of the largest diamonds outside the British Crown Jewels and in his tie was the mate to this dazzling gem.

He wore costly clothes, was handsome, had an impressive manner and a beard.

We saw one of his planes — a luxurious cruiser — and met his private pilot. Later we visited his mansion and admired the spacious, landscaped grounds.

In the yard was a fountain and, that night as we returned from across the river, we saw the shimmering waters, first a royal purple, then a brilliant green, and then a rich crimson. The fountain was the first of the kind I had ever seen. It cost several thousand dollars.

It was related that a man who had had several drinks in Villa Acuna was returning to Del Rio and when he saw the rapid succession of colors, he figured he was "seeing things" and he exclaimed, "I'll swear off drinking!"

Some years later, I was in Del Rio to speak at the high school graduation and the greatest applause of any senior was accorded Dr. Brinkley's son.

Bushland, Tex., Man Reports—

"Made $15 an acre grazing wheat—cut a 40-bu. crop"

Bill D. Wood, who farms 640 acres, says: "My records show the dollar profit in applying Phillips 66 Agricultural Ammonia pre-plant to wheat land. On my irrigated wheat, I paid for my seed and fertilizer and made $15 net an acre grazing it, when I used Phillips 66 Ammonia. The next year, I cut a 40-bushel wheat crop."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields . . . and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS OF THE 18TH CONGRESSIONAL DISTRICT

The Mad Rush

The last two weeks of Congress are like outside rows of corn—they should never be planted. But, no one has been able to solve the problem to do away with the outside rows of corn or the last two weeks of Congress. The only way that I can think of would be to pass a resolution the last thing before final adjournment cancelling and voiding everything which had been done for the previous two weeks. This would probably work for one or two years until someone conceived the idea of recessing two weeks before final adjournment.

Much constructive legislation is passed in the last two weeks of a session of Congress, but so much attention must be paid to major bills with all of their complexities that it is an opportune time for innocent looking measures to be pushed through without sufficient debate. Many of these measures have money authorizations included that can add up to a rather stupendous sum. On one day during the last two weeks, the Senate passed 123 measures, treating matters all the way from the Virgin Islands to the Hawaiian Islands, Alaska and Guam, territorily speaking, and all the way from a bill dealing with a church to another bill having to do with jail-type confinement, spiritually speaking. The House of Representatives had several very similar days.

The committees grind to a virtual standstill during the early part of these last two weeks, because it is obvious that it would be futile to report bills that would have little chance of coming before the Congress. When a committee reports a bill, it is necessary to take it before the Committee on Rules in order to get clearance for consideration of the bill by the full House of Representatives. The Rules Committee acts as something of a traffic cop with regard to legislative matters, saying what may come before the Congress and what may not.

Even without the bills which are reported by the committees during the last days, there is always a log jam of bills that have been reported earlier in the session which have not been acted on by the Rules Committee.

Therefore, the pressure on the Rules Committee during the last few days becomes tremendous. It would be humanly impossible for that committee to so much as consider a small part of the requests made for hearings. Several highly controversial measures had not been reported out their respective committees in time for the Rules Committee to act upon them prior to the final drive for adjournment.

The chairmen of these committees were, therefore, expecting to get authorization to present the bills to the Congress for a vote during this last two weeks period. However, chaos seemed to be the order of the day when the Chairman of the Rules Committee turned up missing.

He is the only one who can call a meeting of that committee and, therefore, his presence was highly essential. There was much conjecture concerning his whereabouts. One Member suggested he might be on the submarine, Skate, underneath the North Pole. However, he turned up in good shape on Thursday morning and matters began to proceed in order.

These several bills that were in controversy were the Housing Bill, the TVA Bill, the Minerals Stabilization Bill, and the Distressed Areas Redevelopment Bill. All of these involved big sums of money, and each of them should have been thoroughly and completely debated before the House.

It is my fond hope that some day measures of this magnitude can be reached early in the session so that ample time may be had for full development of all of the problems involved. A full-dress debate in both the House and the Senate of such measures would certainly provide much better laws and, in my opinion, open the door to a better solution of some of the problems under consideration.

The farm bill that was passed hurriedly on last Thursday was a compromise bill. It will answer only a few of the problems that I think should be in the agricultural segment of our economy. Until we do face up to our problem and begin to provide solutions to the agricultural difficulties, we can expect the continued migration of farm families into the cities and the resulting increase in unemployment and social problems.

I feel that the 86th Congress, which convenes in January, should go into this problem immediately and work out fair and sound legislation as early as possible so that ample time will be available within which to act.

Most interesting hobby we've heard of lately is a kind of 'once-upon-a-time' club. Several hundred women, scattered over the nation, belong. It's the National Story League. Its object is to encourage "the creation and appreciation of the good and beautiful in life and literature through the art of story-telling."

We sat by a member at dinner recently. She was an attractive middle-aged woman with the look of a person who enjoys life.

"We don't do it for money, just for the pleasure we can bring to others with our stories," she explained. "We go into hospitals, libraries, homes for children, the blind, and others who are lonely."

She was the editor of Story Art magazine, a small bi-monthly that prints original stories, shows volunteer story-tellers how to make a "tellable" story from a real-life incident, reports on the activities of the 126 leagues in the United States, and gives other helpful information. She sent us some copies and we read with interest of this movement, now 55 years old.

What a wonderful way to spend leisure time! Nothing to buy, nothing to sell — not even anything to hold in one's hand, or put upon a shelf. But its rewards are real — the grateful look in an invalid's eyes, the earnest attention of a restless boy, the wide-eyed wonder of a little girl whose imagination is stirred by a picture woven from words. And to that the very special gift to a push-button world: the joy to be found in old-fashioned, heart-warming tales.

In these dollar-minded days, it's refreshing to learn about a non-profit hobby, shared by unselfish women, which develops their own talents for the good of mankind.

"MY ELECTRIC HOME FREEZER MAKES MEAL PLANNING SO Easy!"

SAYS
Mrs. H. S. Hackfield,
2132 56th STREET,
LUBBOCK, TEXAS

"An electric home freezer is the perfect answer to meal planning, especially for working wives," says Mrs. Hackfield. She continues, "There are many advantages of owning a freezer. For example, it's such a convenient appliance and, because we can buy in quantity when prices are lowest, our freezer lets us realize a big savings in food costs. But, getting back to meal planning — when I have odd moments I can prepare complete meals in advance, freeze them, and then when we have dinner guests it's a simple matter just to 'heat 'n serve.'" The same advantages that Mrs. Hackfield speaks of can be yours just as soon as you get that electric home freezer you've been wanting for so long — why wait — there's never been a better time to buy!

Broilers, Fryers Top Food List

Each month the U. S. Department of Agriculture, in cooperation with the food industry, lists foods that are in extra large supply and encourages homemakers to look for them at the food counter. By moving ample supplies to consumers, farmers get a helping hand in marketing their products.

Broilers and fryers have been selected as the featured item on the September Plentiful Foods list.

Normally, demand for young chickens slumps after Labor Day. However, chick placements in commercial broiler areas are increasing and September marketings are expected to be about a fifth larger than the same month last year. In the first half of 1958, marketings were up 13% above the same period in 1957.

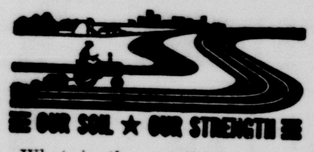
Other plentifuls listed are milk, fresh peaches, potatoes, fresh vegetables and canned ripe olives.

Milk supplies remain greater than demand, although surplus is smaller than a year ago. In the first half of 1958, output dipped slightly below the same period last year.

Potatoes and fresh vegetables continue in heavy supply. Potatoes from late summer production, running 10 percent above last year, will still be moving in September, supplemented by early shipments from fall areas. Fresh vegetables included are tomatoes, corn, lima beans, peppers, cucumbers, cabbage, lettuce and onions.

Supplies of fresh peaches and canned ripe olives are expected to be heavier than normal in September.

SOIL CONSERVATION DISTRICT NEWS



What is the condition of your soil?

Soil condition, a physical characteristic, is the tendency of the soil particles to form crumbs and the amount of pore space between crumbs.

Soil in good condition is crumbly or as some describe it, mealy. Worm channels and casts will be found, few to many and organic matter can be seen in the top soil and upper portion of the subsoil. The system of pores and organic matter will allow better moisture penetration and a better air, water and plant relationship. Soils in this condition will resist compaction by farm machinery.

When soils show some signs of compaction, tends to run together when wet and crusts when dry, they are in fair condition.

Soils in poor condition will run together and puddle when wet, forming a structureless mass and when dry, will form large hard clods and or crusts.

A soil in poor condition will pulverize by ordinary cultivation methods, resulting in a soil more likely to blow. Poor soil condition is a result of improper tillage practices and a reduction of organic matter in the soil.

The condition of the soil can be improved with the addition of organic matter. This can be accomplished by the addition of organic matter by use of crop residues, barnyard manure, green-manure crops or a legume pasture rotation.

By VERN SANFORD
Texas Press Association

Everyone wants harmony at the State Democratic Convention Sept. 9 in San Antonio.

Gov. Price Daniel, U. S. Sen. Ralph Yarborough, National Committeeman Bryon Skelton, and Speaker Sam Rayburn — all say they want harmony.

Even National Committeewoman Mrs. R. D. Randolph, who has tirelessly needled Governor Daniel and the state committee for two years, more or less joined in by predicting "a spirit of good will" among delegates.

Despite all the expressions of good intent, harmony among Texas Democrats is hard to come by. Like a huge household of relatives and in-laws, the party always has many clashing personalities and viewpoints under one roof. In the past, they've been rump conventions and separate rival delegattions to the national convention.

It is the hope of avoiding this in 1960 that lies behind the cementing efforts. Many leaders contend that a unified Texas delegation could have a key role in naming the next presidential nominee.

All the above-mentioned leaders are presently agreed on one issue — support of the party nominees. Point on which they part is whether the governor should have a veto over the state committee members selected by vote of district delegations.

Governor Daniel, following the practice of past governors, bumped some of the district-selected committee members in 1956 and submitted people more in line with his program.

Mrs. Randolph and Senator Yarborough, now joined by Rayburn, insist the governor has no right to do this.

But Governor Daniel has not promised he wouldn't. He said he felt no district should propose a committee member who is "dedicated to the sabotage of . . . duly elected officers of the party." This almost certainly refers to members of the Democrats of Texas (DOT), an ultra-liberal group that has heckled and hindered the governor and other official party leaders at every turn for the past two years.

Delegates from each of the 31 senatorial districts are allowed two state committee members — a man and a woman. It is estimated that perhaps six of these districts may be controlled by anti-Daniel forces. Therein lies the possibility for discord. If any of these districts propose a DOTer for the state committee, the governor is not likely to "harmonize."

HIGH HOPES

Mr. Wilson went to Washington, his saddlebags full of multi-million-dollar hopes for Texas school children.

Atty. Gen. Will Wilson personally delivered the Texas brief in the upcoming U. S. Supreme court case on Texas tidelands. At issue is whether the state or federal government owns submerged lands between the points 3 miles out and 10.5 miles out.

Wilson carried the arguments for Texas ownership in 40-year-old saddlebags that belonged to a heroic Texas Ranger. He declares optimistically that the case is jinxed — in Texas' favor — because the brief is dated Aug. 13, trial is set for Oct. 13, oral arguments will last 13 hours and 13 people worked on the research.

More seriously, he noted that Texas had spent "a big sum of money" marshalling its facts, that a bevy of top-notch legal minds from over the state, nation and two foreign countries had spent some 2,000 hours on the 400-page brief.

"We feel like we have an overwhelming case," he said. "We feel like we will win it."

Exploration indicates that the 7.5-mile band of disputed land is exceptionally rich in oil and gas. If Texas is successful in holding its claim, revenue from these resources would go into the Permanent School Fund.

PLACE IN THE SUN

Texas Republicans have served notice they will demand an even break at getting their candidates in the favored position on the general election ballot.

Desired place is the first column on the left. GOP leaders say people automatically begin reading in this column, and some never go any further.

Republicans hope to work things out on the local level with some sort of cointossing arrangement. But they say they'll go to court, if necessary.

CITIES WIN OUT

Cities and utility companies won the first round of a court battle to determine who pays the cost of re-locating utilities for new interstate highways.

An Austin district court ruled that the cost can be paid from federal-state highway funds, as provided in a law passed by the last legislature. State Highway Department is challenging the constitutionality of this law.

Ultimate decision will, of course, be made by the Supreme Court. Some estimate the re-location costs could run as high as $100,000,000.

PAROLE STAFF COMPLETE

Board of Pardons and Paroles has announced the oppointment of 10 new parole supervisors, rounding out the 40-man statewide staff.

Adult parole staff was authorized by the last Legislature to allow for release of prisoners who show promise of "going straight." About 3,000 persons are now on parole in Texas, and more are expected to be released as the new supervisors go to work.

Latest appointees to the parole staff are Louis Bramblett of Dallas, Julian Chafin of Sherman, Cecil Smith of Jourdanton, Walter Williford of Houston, Massey Herrera of Corpus Christi, Thomas Casso of El Paso, Herbert Gnepper of Lubbock, Alfredo Garcia of Austin, Terry Cromwell of Fort Worth and Charles Davis of Goldthwaite.

COLLEGE FUND SEEKERS

Members of governing boards of state colleges have formed a committee to urge additional appropriations for the colleges.

Jointly the college directors feel they need about $13,000,000 a year more, mostly for faculty salaries.

Herman Heep, Austin oilman and member of the Texas A&M Board, is chairman of the committee. Said Heep, "It is time we point out that Texas, ranking low among the states in its support of higher education, is getting about what it is paying for."

TELEPHONE TALK
by W. L. Leavy, Manager

DUNKING BOARD

If anyone had been looking for a chance to throw something at a telephone man, they had it recently. Bob Gough was the "sitting duck" at the big Lions Club carnival. He got plenty of business.

NEW ARRIVAL

If you have noticed Mrs. Sue Brazil missing from our business office recently, there is a pretty good reason. She's at home with her brand new baby girl. Congratulations, Sue.

NEW CURE FOR THE BLUES

I've always heard that women have a sure cure for the blues. Go out and buy a new hat!

Well, I'm not knocking hats or anything like that, but next time you need perking up, try ordering yourself a new extension telephone — in color.

Phones now come in cherry red; moss green; pastel yellow; aqua blue; light gray; rose pink; ivory; white; and light beige. They're not expensive, either. The one-time charge for a color phone is just $10. Installation and monthly rate are exactly the same as for a standard black extension.

With a glamorous looking, step-saving, extension phone in your kitchen or bedroom, or alongside your sewing table, you'll be just a whole lot perkier.

TIPS FOR TRAVELERS

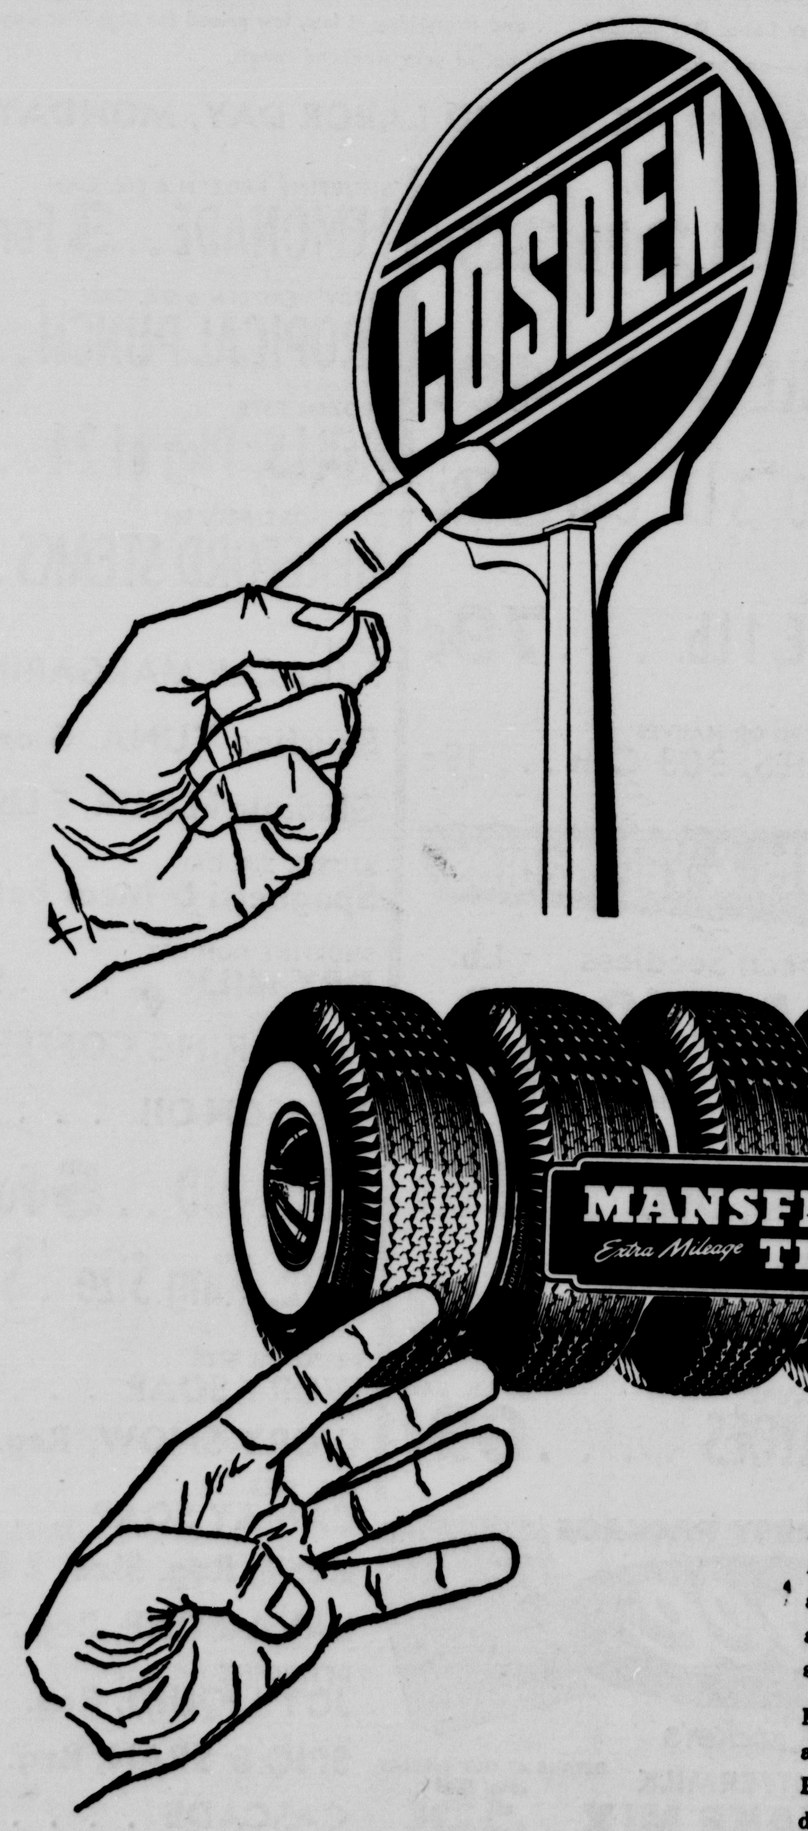
Whether you're on vacation or business, traveling by auto is a pleasant and handy way to go.

And when you're making a trip, Long Distance telephone service can be a mighty useful traveling aid.

When you start out on a long trip, for example, you can't always be sure how far you'll get by nightfall. By lunch time or early afternoon, though, it's pretty easy to decide on an overnight stopping point. And that's the time to get to a telephone and call ahead for reservations.

At the end of a long, hot drive, just knowing you have comfortable accommodations waiting is worth a lot to your peace of mind.

Call by number. It's twice as fast.
SOUTHWESTERN BELL TELEPHONE COMPANY



ONE FOR THE MONEY

ONE FOR THE MONEY is the sign that invites you to stop for Cosden's Higher Octane Regular or Premium Ethyl gasoline — and advanced Cosden 10 W 30 multi-viscosity motor oil. This is the Cosden Performance Team — gasoline *and* motor oil engineered to give you more miles per gallon — which means *more miles per dollar.*

Mansfield Extra Mileage Tires are available on the Cosden Extended Payment Plan. Get the details from your Cosden dealer.

COSDEN PETROLEUM CORPORATION
Big Spring, Texas

Cowmen To Need Winter Pastures

Most of Texas has had a good pasture year, but winter pastures will still be needed to supply green grazing while summer grasses are dormant, reminds E. M. Trew, extension pasture specialist.

Winter pastures reduce the cost of wintering livestock and help maintain growth and production, points out Trew. He says many dairymen have reported net returns of $25 to $50 per acre from winter temporary pastures.

Winter pastures pay off from the soil standpoint, too, says the specialist. They cover the soil and prevent washing and blowing and the roots add organic matter.

Trew advises planting at the regular time in the fall, even if it is necessary to dust the crop in. He points out that operators who have dry planted in the past were ahead when rain did come, because the plants came up, grew off and gave grazing much sooner than where seed were not sown until after the rain.

The use of fertilizer can't be overlooked, for it will pay big dividends when needed, says Trew. A soil test is the best fertilizer dollar that can be spent, for this is the best way to determine the type and amount of fertilizer that is needed.

If the crop has to be dusted in, the specialist advises putting down the fertilizer, too. He says it won't be lost, because if rain doesn't come for the winter pasture, the fertilizer will still be there for use by the succeeding crop.

Varieties of plants to use varies with different sections of the state. Trew advises contacting the local county agricultural agent for this and other information about winter pastures. They also have copies of L-258, "Winter Temporary Pastures," which is loaded with information on the subject.

Sanders Named Top Graduate

Charles Richard Sanders, son of Mr. and Mrs. Dan Sanders and administrative resident for the Dallas County Hospital, has received an award as one of the top graduates of Northwestern University's hospital administration school.

The certificate and $200 award are given annually by the American Hospital Supply Corporation for scholarship, industry and leadership.

Sanders became administrative assistant for the hospital district July 1.

Mrs. James M. Murphy, Dr. Leta Boswell and Mac returned Sunday from a vacation trip touring the Western states.

Mr. and Mrs. C. A. Fowler of Stamford celebrated their fiftieth wedding anniversary on Aug. 24. Open house was held with about 75 attending. The Fowlers were formerly of Happy.

Mayor's Soap Box

(The opinions reflected herein are not necessarily those of the other two commissioners).

I try to smile—I wish you would.

Mrs. M. A. Biggers Suffers Hip Break

Mrs. M. A. Biggers suffered a broken hip Saturday afternoon when she fell at the curb on the northeast corner of the intersection of Fourth Avenue and 16th Street.

She was taken to Neblett Hospital by Warren-LaGrone ambulance.

Mr. and Mrs. Perry Morton, Mr. and Mrs. Charles Counseller, Mr. and Mrs. Douglas C. Counseller and children of Topeka, Kans., and Mr. and Mrs. Elmer Morton and children, and Mr. and Mrs. Bill Counseller and children of Canyon spent the weekend at Cimarron, N. M.

Mrs. Louise Clark of Inglewood, Calif., returned home Wednesday after being with her mother, Mrs. W. I. Wester, during her operation in the Methodist Hospital in Houston on July 28. Mr. and Mrs. Iva Wester of Carlsbad, N. M., also visited his mother last week.

Bond Election - -

Continued from Page 1

rushed in the project because of the market for bonds.

A bond-company group has given the board a 90-day commitment of an average interest rate of 3.79 per cent. The commitment expires in October.

Columbian Securities Company representative Bob Davis of Amarillo gave the board a quotation of 4.5 per cent interest Tuesday to show them how the bond market has risen during the past few weeks.

A sample ballot and an explanation of how to mark the ballot will be printed in next week's issue of The Canyon News.

OLIVER 880

New Gasoline and Diesel Row Crop Champion

This is the new work leader—the *most powerful row crop tractor built*. In recent, nationally recognized tests the gasoline 880 developed 56.29 drawbar horsepower... the diesel, 54.97. These 880 models also established new records in pounds of drawbar pull: 7998 and 8118.

There's a lot more to see in the new record-breakers, extra units to make all your jobs go faster and easier. Come in and look over the new Power-Booster Drive, which increases pulling power almost one-third for heavy going...Power-Traction Hitch, which transfers more weight to the rear wheels to reduce slippage and save time...Powerjuster wheels and full-time power steering to save *you*.

From every angle these powerfully smooth Oliver "sixes" are your *practical* buy. You get such added conveniences as the restful, rubber spring seat...safety-switch key starting...sure, long-lasting double-disc brakes...and a single-lever, 6-forward-speed transmission at *no extra cost*. Get the tractor with *everything*—the new 4-5 plow Oliver 880. LP-Gas drawbar rating same as gasoline.

Appoint Music, Math Instructors

Appointment of new instructors in music and mathematics for the 1958-59 session at West Texas State College has been announced by President James P. Cornette.

Marion Moore, a 1957 graduate of West Texas State, will return to teach mathematics this fall. He is from Amarillo. Donald W. Haddad of Marietta, Ohio, has been named instructor in music.

Moore, formerly of Boise City, Okla., earned his B. S. degree in mathematics at WT in 1957. He received a fellowship at Florida State University, but transferred to Texas Tech to work toward his M.S. degree.

Son of Mr. and Mrs. Floyd Moore of Boise City, Moore was president of Alpha Chi, national honor society, while at WT. He was a student instructor. He served two years in the Army.

Haddad holds the Bachelor and Master of Fine Arts degrees from Ohio University. He taught two years at Ohio University, and was an instructor for the Red Fox Music Camp in Massachusetts this summer.

The new instructor played six years for, and was president of, the Ohio University Symphony Orchestra and Symphonic Band. He is a member of Phi Mu Alpha, professional music fraternity, Kappa Kappa Psi, national fraternity for bandsmen, the Music Educators National Conference, and Kappa Delta Pi, honorary education society.

Gossett, Davis Marry Saturday

Dorothy Gossett of Amarillo and Ervin Davis, Route 2, Happy, were married Aug. 23 in the South Lawn Baptist Church in Amarillo by the Rev. Cordell Bales. Attendants were Mr. and Mrs. Tommy Petropoulos.

The bride is the daughter of Mr. and Mrs. Sam Gossett of Sayre, Okla. The bridegroom is the son of Mr. and Mrs. Earl J. Davis of Route 2, Happy.

The couple took a week-long wedding trip to Colorado and when they return they will make their home on the Davis farm southwest of Canyon in the Jowell community. The bridegroom will continue farming.

Mrs. Davis has been employed by the Bell Telephone Company in Amarillo.

Research Station Sets Field Day

The 1959 Research Program for the High Plains Station of the Texas Research Foundation will be decided at a meeting of the Advisory Council during the Second Annual Field Day September 17. Harold Hinn, chairman, announced.

Members of the Advisory Council representing nineteen counties have been analyzing the agricultural research needs in their section of the Plains. They have also been receiving suggestions from farmers during the year.

Priority of the projects to be undertaken at the Station will be determined by the Board on the basis of the greatest need. The extent of the projects to be conducted will be governed by the funds available.

The addition of a specialist in irrigation and water conservation proposed at the June meeting will be presented for foraml action.

The budget for 1959 will be presented for consideration by the Board. The building program which was deleted from the 1958 budget will again be up for consideration. Priority will be established for construction of a laboratory, greenhouse, barn (for processing and storage), and an office building.

The policy of the Texas Research Foundation since its inception permitting no indebtness applies to the High Plains Station.

Visitors Friday in the G. B. Combs home were Mr. and Mrs. Dwayne Atkins, Ken and Carol Ann of Amarillo. Those visiting over the weekend were Mr. and Mrs. A. Lee Jenkins, Randy and Larry; Mrs. Jenkins is the Combs' granddaughter.

Umbarger News

Dinner guests in the Ben Buecker home were Mr. and Mrs. Paul Pepmiller and Mr. and Mrs. Frank Begert and family.

Mr. and Mrs. Bernard Hartman and family were supper guests in the L. L. Raef home.

Visitors in the Frank Grabber home were the Richard Friemels, Mr. and Mrs. John Grabber and family, Mr. and Mrs. C. E. Burtrand and family, Walter Hess Jr., Marcie Sanning, Mr. and Mrs. Francis Neusch and family of Panhandle.

Mr. and Mrs. Harry Arndt have returned to Coleman, Ala., after a two week visit with Mrs. Arndt's parents, the Frank Grabbers.

Sister Mary Edward, C. C. V. I., from San Antonio is visiting with her parents, Mr. and Mrs. Frank Grabber.

Bernard Grabber, Marcie Sanning, Mary Janssen and Sister Mary Edward accompanied Sister Mary Gertrude to Fort Smith, Ark., where they visited with Sisters Mary Kenneth and Aloysius.

The Umbarger Blue Sox were defeated by the Coors ball team by the score of 14-1.

VOICE OF EXPERIENCE

Eight-year-old: "I ain't never gonna get married."

Seven-year-old: "Why?"

Eight - year - old: "I've already lived too long with married people."

...the JOHN DEERE Double-Run GRAIN DRILL
You can put a plus sign on your grain yields—and profits—by planting with the John Deere "DR" Double-Run Grain Drill. The "DR" is a top-performing double-run drill that will consistently promote higher yields in good and poor seasons. You can set the feeds on any one of 200 different quantity settings—plant just the amount of seed you want. Jackknife spring pressure on the furrow openers assures uniform planting depth, even in fields that have a lot of ridges and depressions. Germination is quick, stands are full and even, yields are higher.
Put yourself bushels and dollars ahead by planting with a John Deere "DR" Drill. See us soon.

--WARNING, MAIZE GROWERS--
KNOW THE SPRAY YOU ARE USING ON GRAIN SORGHUM CROPS IN THE FIELD
Check with the Farm Chemical Company where you do business for Approved Spray Control Methods
It is our information that the Pure Food and Drug Administration is going to make regular checks and confiscate any grain showing a trace of toxic residue. These residues occur from Spraying with Hydro Carbon Base Chemicals, such as Heptachlor, Chlordane, DDT, 2-1, Dieldrin and others.
SAFE TO USE ON MAIZE ARE
MALATHION, TOXAPHENE and PARATHION
Be sure to use these carefully as recommended by your Farm Chemical Company
The Pure Food and Drug Administration has authority to Confiscate grain in storage under the Miller Bill, which went into effect last year.
Dr. W. N. Cramer, grain sorghum specialist, says, "We could have millions of pounds of grain tied up in this area, if High Plains farmers use these chemicals."
Hydrocarbons leave a residue on grain that is toxic to livestock. This toxicity is carried into the meat of livestock, which could make the meat toxic to humans.
These urgent suggestions are made in the interest of producers and handlers of grain. It is important to all of us to be on the safe side.

Wayside Club At County Camp

The annual Armstrong County Home Demonstration Club camp was held last Monday and Tuesday at Fairview, west of Claude. The Wayside Club served the noon meal Monday.

Those attending from Wayside were Mrs. E. J. Mahler, Mrs. Floyd Adams, Mrs. Rube Nickelson, Mrs. Cortez McNeill, Mrs. Bill Allen and Kathy, Mrs. C. D. Rogers, Mrs. A. J. Newsom, Mrs. Melton McGehee, Mrs. D. T. McGehee, Mrs. Henry Hamblen and Mrs. Donnie Martin.

The council meeting was held in the afternoon. Club delegates gave reports of the convention held recently in Austin. New officers were elected. Those from Wayside were Mrs. Henry Hamblen, secretary, and Mrs. Melton McGehee, parliamentarian.

That night, after supper, each club put on a play. Wayside put on a baby show. The babies were Mrs. Henry Hamblen, Mrs. Rube Nickelson, Mrs. Cortez McNeill, Mrs. Floyd Adams, Mrs. Dewitt McGehee and Mrs. E. O. Tuggle. Mrs. E. A. Franklin and Mrs. Bill Allen were the judges and Mrs. Tuggle was judged as winner.

Mrs. E. J. Mahler was the doctor and Mrs. Melton McGehee the nurse. Mrs. Guy Watson was mistress of ceremonies. Mrs. A. J. Newsom, Mrs. C. D. Rogers, Mrs. Robert Adams and Mrs. Willie Modisette were the mothers. After the baby show, Mrs. Newsom, Mrs. Allen and Mrs. Rogers put on a dance. Their style of dress was the gay twenties.

Others attending the camp Monday night were Mrs. W. C. McGehee, Mrs. Paul Wetzel and Marlyn, Marian and Fay Modisette and their cousin, Carolyn Brawner, of Amarillo.

Mr. and Mrs. A. K. Goodman returned Friday from a three-month trip in the East. They traveled 9,000 miles and saw many historical places in Florida, Washington, D. C., New York City and other points. They returned by way of Mineral Wells, where they visited their daughter, Mrs. Bryce Slack and family. Mr. Slack is assistant manager of the Perry Store there.

College Names Three Teachers

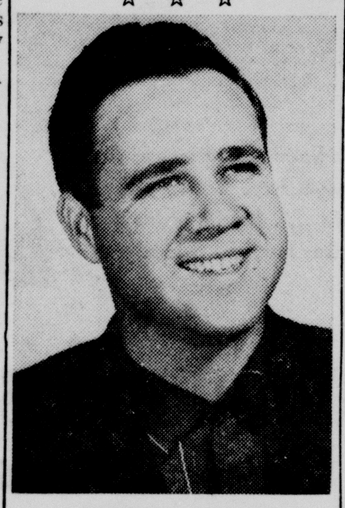
President James P. Cornette has announced the appointment of three new instructors for the 1958-59 session at West Texas State College. They will assume duties in September.

They are Robert D. Hobbs of Midland, instructor in art, Bobby Gene Chester of Denton, instructor in business, and Milton V. Backman Jr. of Salt Lake City, instructor in history.

Hobbs graduated from Big Spring High School and attended Howard County Junior College and Texas Tech before transferring to West Texas State, where he earned his B.S. degree in art. He holds the M.A. degree from Colorado State College.

Following graduation from WT, Hobbs worked for the Standard Oil Company of Texas in Amarillo for two years before going to Taxco, Mexico, to study art. He has taught in Midland schools since 1954.

☆ ☆ ☆

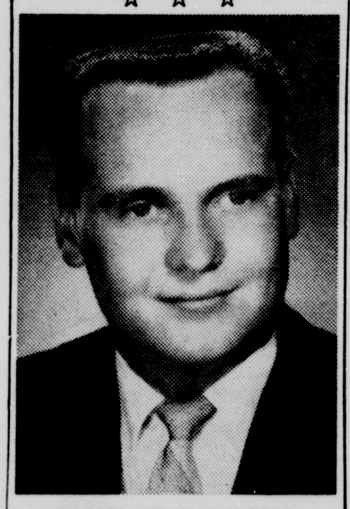


ROBERT D. HOBBS

☆ ☆ ☆

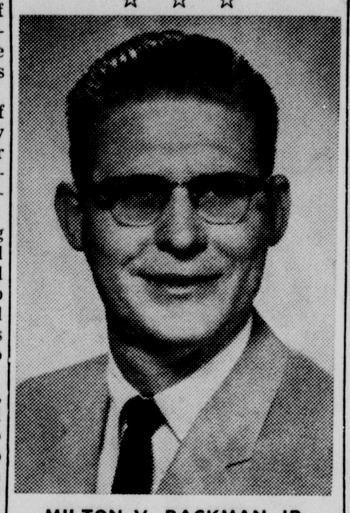
Chester holds B.S. and M.E. degrees from North Texas State College, where he has been a graduate assistant and instructor. He served in the Army two years before completing his master's degree. Chester is a member of Delta Pi Epsilon, professional business education fraternity, the United Business Education Association, Texas Business Education Association, and Phi Delta Kappa, professional fraternity for men in education.

☆ ☆ ☆



BOBBY GENE CHESTER

☆ ☆ ☆



MILTON V. BACKMAN JR.

☆ ☆ ☆

The new history instructor, Backman, is nearing completion of his dissertation for the Ph.D. degree from the University of Pennsylvania. After a short time at Eastern New Mexico University, Backman transferred to the University of Utah, where he earned the B.S. and M.A. degrees.

Backman, who is married, has traveled in 39 states and has visited in England, France, Switzerland and Italy. For two years he served as a missionary for the Church of Jesus Christ of Latter-day Saints in the Union of South Africa.

Backman served in the Merchant Marines for 18 months and was in the Air Force during the Korean War.

ADVERTISEMENT FOR BIDS

Sealed bids addressed to E. T. Cummings, County Auditor, will be accepted by the Commissioners Court of Randall County for the hauling and dumping of approximately 7,500 cu. yards of caliche on two and one half (2½) miles of road extending south of the Lloyd Hix farm to the Bill Patke Farm on the farm to market road north of Canyon, Texas; and approximately 4,500 cu. yards on the Booster Station road, a distance of 1½ miles extending south from State highway 217 beginning 1 mile east of Canyon, Texas. Two propositions are available and bidders will show cost of each proposition; as follows:

1. To purchase and transport from available pits two miles north of Canyon, or

2. To transport from pit on Canyon City Club property with County furnishing Caliche.

Bids will be opened September 8, 1958, at 1:30 P. M.

Bidders may secure further information by contacting B. E. McCormick, Commissioner Precinct 1.

The Commissioners Court reserves the right to reject any or all bids.

ROY JOE STEVENS
County Judge

T. H. LAIR
County Clerk

2012

Troop 66 Takes Mountain Trip

Twenty-one members of Scout Troop 66 spent a week in the mountains in the Pecos Wilderness Area of the Santa Fe National Forest recently.

The troop left Canyon on Aug. 15 and returned Aug. 21. The scouts hiked the six miles in to Stewart Lake while pack horses carried food, tents and other gear.

The highlights of the first day for the scouts was seeing Art Linkletter, who was vacationing at the Mountain View Ranch at Cowles, N. M. Stephen Greiner managed to get Linkletter's autograph, which he proudly displayed to the rest of the troop.

One of the projects for the week was building rafts. The troop was paired off into buddy-teams, and each team built a raft made of five logs. The rafts had to be capable of supporting three or four scouts.

The chief cook, Chuck Nester, supervised cooking, which was done by a different pair of scouts each day. Nester's speciality was hot biscuits and jelly. The menu varied from complete steak or trout dinners to baked beans. Cooking was done over an open fire in dutch ovens and aluminum pots.

One day of the trip was spent in hiking to one of the highest surrounding peaks from which one could see, as one boy commented, "the whole world." From the vantage point, towns that were 50 or 60 miles away could be seen. Another scout commented, "Seeing all this makes you realize how small and insignificant you really are."

Those attending were Davis Price, Eugene Blasdel, Richie Brotherton, David Perkins, Ronny Harris, Dewaine Clay, Bobby Haggard, Jody Sheets, Bill Phillips, Mike Calliham, Wayne Lindsey, Larry Holman, Stephen Greiner, Larry Moore, David Arnold, Chuck Nester, Craig Hinger and Roy Harris.

Roy Harris was Senior Patrol Leader. Adult leaders making the trip were Oscar Hinger, Bill Downing and Raymond Haddock.

Dale Williams Makes Hole-in-One

Dale Williams of Amarillo, son of John Williams, made a hole-in-one at the Canyon City Club recently. He holed out on No. 5; the ball hitting on the green and rolling in.
